

Information Letter on LEDEFFECT cooperation

This is to inform that the company LEDEFFECT, Ltd (www.ledeffect.com) is a partner of OSRAM Opto Semiconductors (OSRAM OS) and uses OSRAM OS LEDs series DURIS, Osconiq, OSLON Square to manufacture its products. These components are supplied to the company LEDEffect through official channels of distribution. The volume of deliveries since 2017 exceeded 3 MIO units.

The quality control at OSRAM OS receives information about all claims on product quality.

Technical audit conducted by OSRAM OS, confirmed that the company LEDEFFECT complies with all the rules regarding transportation, installation and use of LEDs supplied by OSRAM OS.

Samples of LEDEFFECT luminaries have been tested in the OSRAM OS laboratory and their quality and performance level are confirmed.

The company LEDEFFECT is one of the fastest growing company on LED lighting market, has a strong research and design base, an extensive dealer network. This allows the company to provide to the market the most advanced products, from a technical point of view and from the point of view of consumer characteristics.
